### Ergonomic, simple and easy to use

#### Capabilities

- Multi-colors LED bargraph
- Bragraph with 48 LED
- Simple and easy to use
- Sturdy and durable moisture probe
- Supplied with a carrying pouch and accessories
- Analog output

#### Specifications **SEFRAM 9861**

##### Measure of WME (Wood Moisture Equivalent)

|                |             |
|----------------|-------------|
| Ranges         | 5,5% à 100% |
| Green display  | 5,5% à 16%  |
| Yellow display | 17% à 21%   |
| Red display    | > 22%       |

Accuracy  $\pm 1\%$  (at room temperature)

##### Analog output

|                  |                                    |
|------------------|------------------------------------|
| Range            | 10mV / %WME<br>Max. amplitude : 1V |
| Minimum load     | 250 ohms (min.)                    |
| Output connector | jack 3,5mm                         |

##### General Specifications

|                             |                                                               |
|-----------------------------|---------------------------------------------------------------|
| Display                     | bargraph with 48 LED,<br>3 colors according to measured value |
| Auto power-off              | yes                                                           |
| Operating temperature range | -20°C to 55°C (RH<70%)                                        |
| Storage temperature range   | -20°C to 60°C (without battery<br>and RH<80%)                 |
| Power supply                | 1 single 9V battery - 6F22                                    |
| Autonomy                    | 150h typical (with alkaline batteries)                        |
| Dimensions                  | 153 x 56 x 32 mm                                              |
| Weight                      | 145g                                                          |

**Supplied with :** battery, manual, protecting cap.
